

LYME DISEASE EDUCATION

This presentation is for the general public as well as those who suspect Lyme Disease or have the disease; whether acute or chronic. Lyme Disease is one of the fastest growing vector-borne infectious diseases in North America. Awareness and accurate information about this illness is key in its prevention, diagnosis and treatment.

TICKS!

Join us for a collaborative presentation with the Lyme Disease Association of Alberta (LDAA) as we examine; what is Lyme disease, signs and symptoms, prevention strategies, management of Lyme and additional resources.
